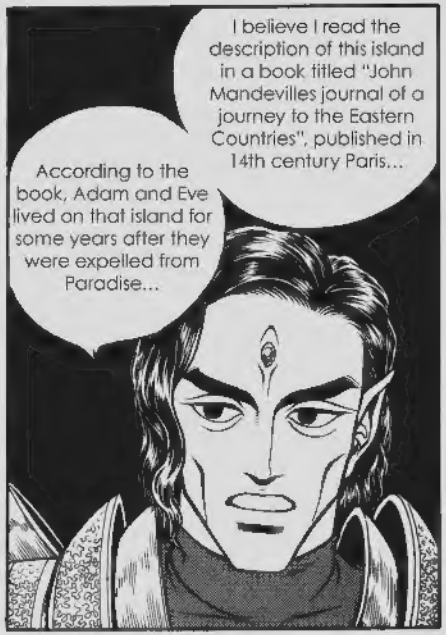
Guyver Advocacy

Such an island actually exists in the Atlantic Ocean?
What are you saying?

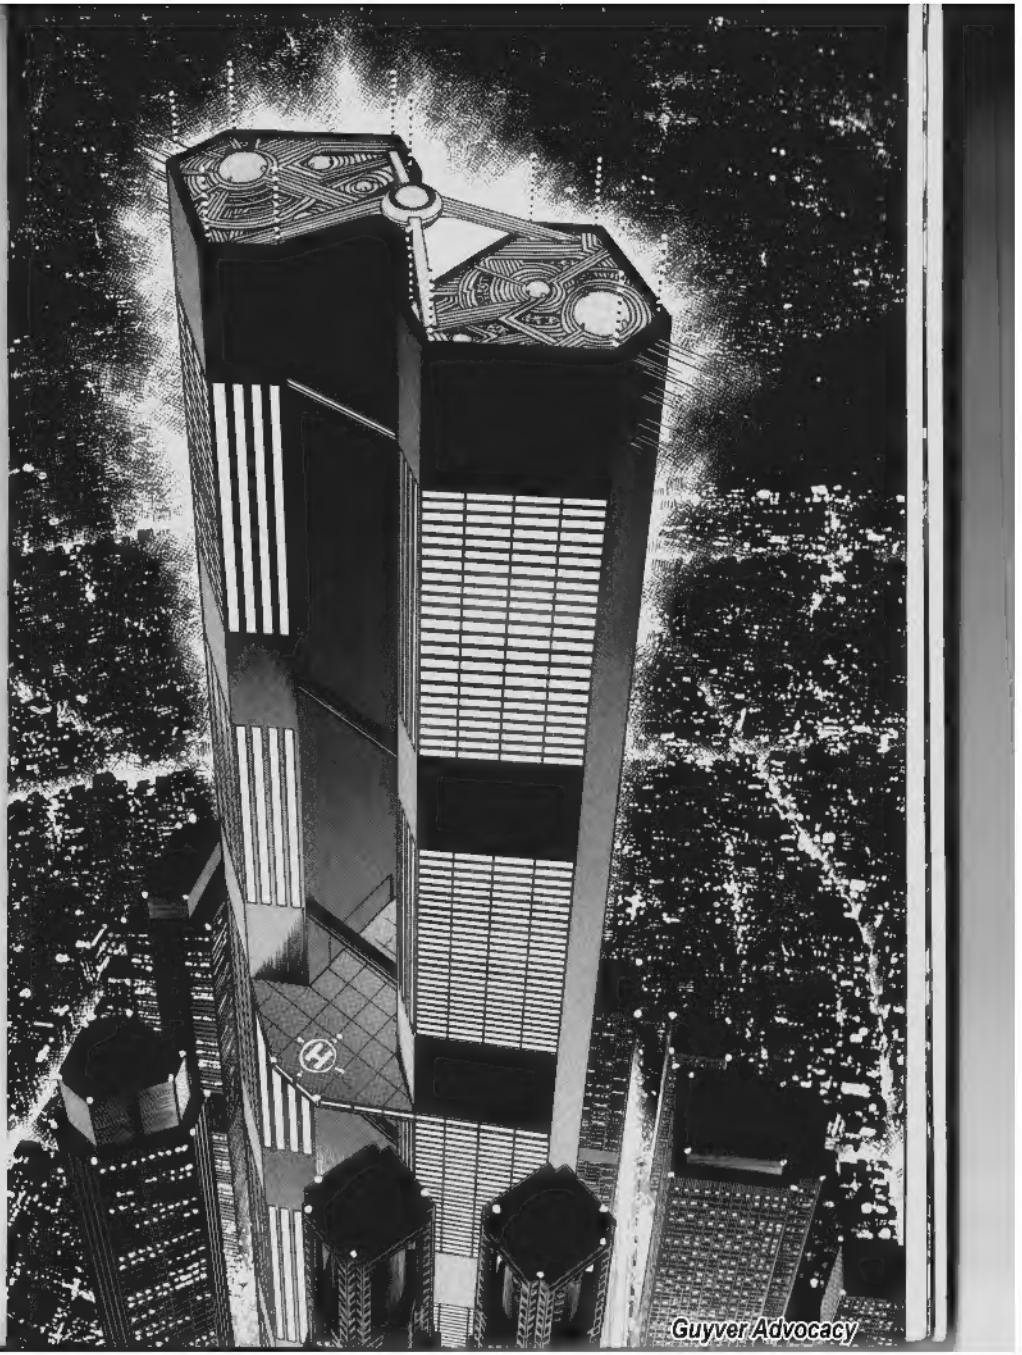
Shin ..?
I have heard the name before.
The island Silha.

These 400 years,
But I did not believe it actually existed.

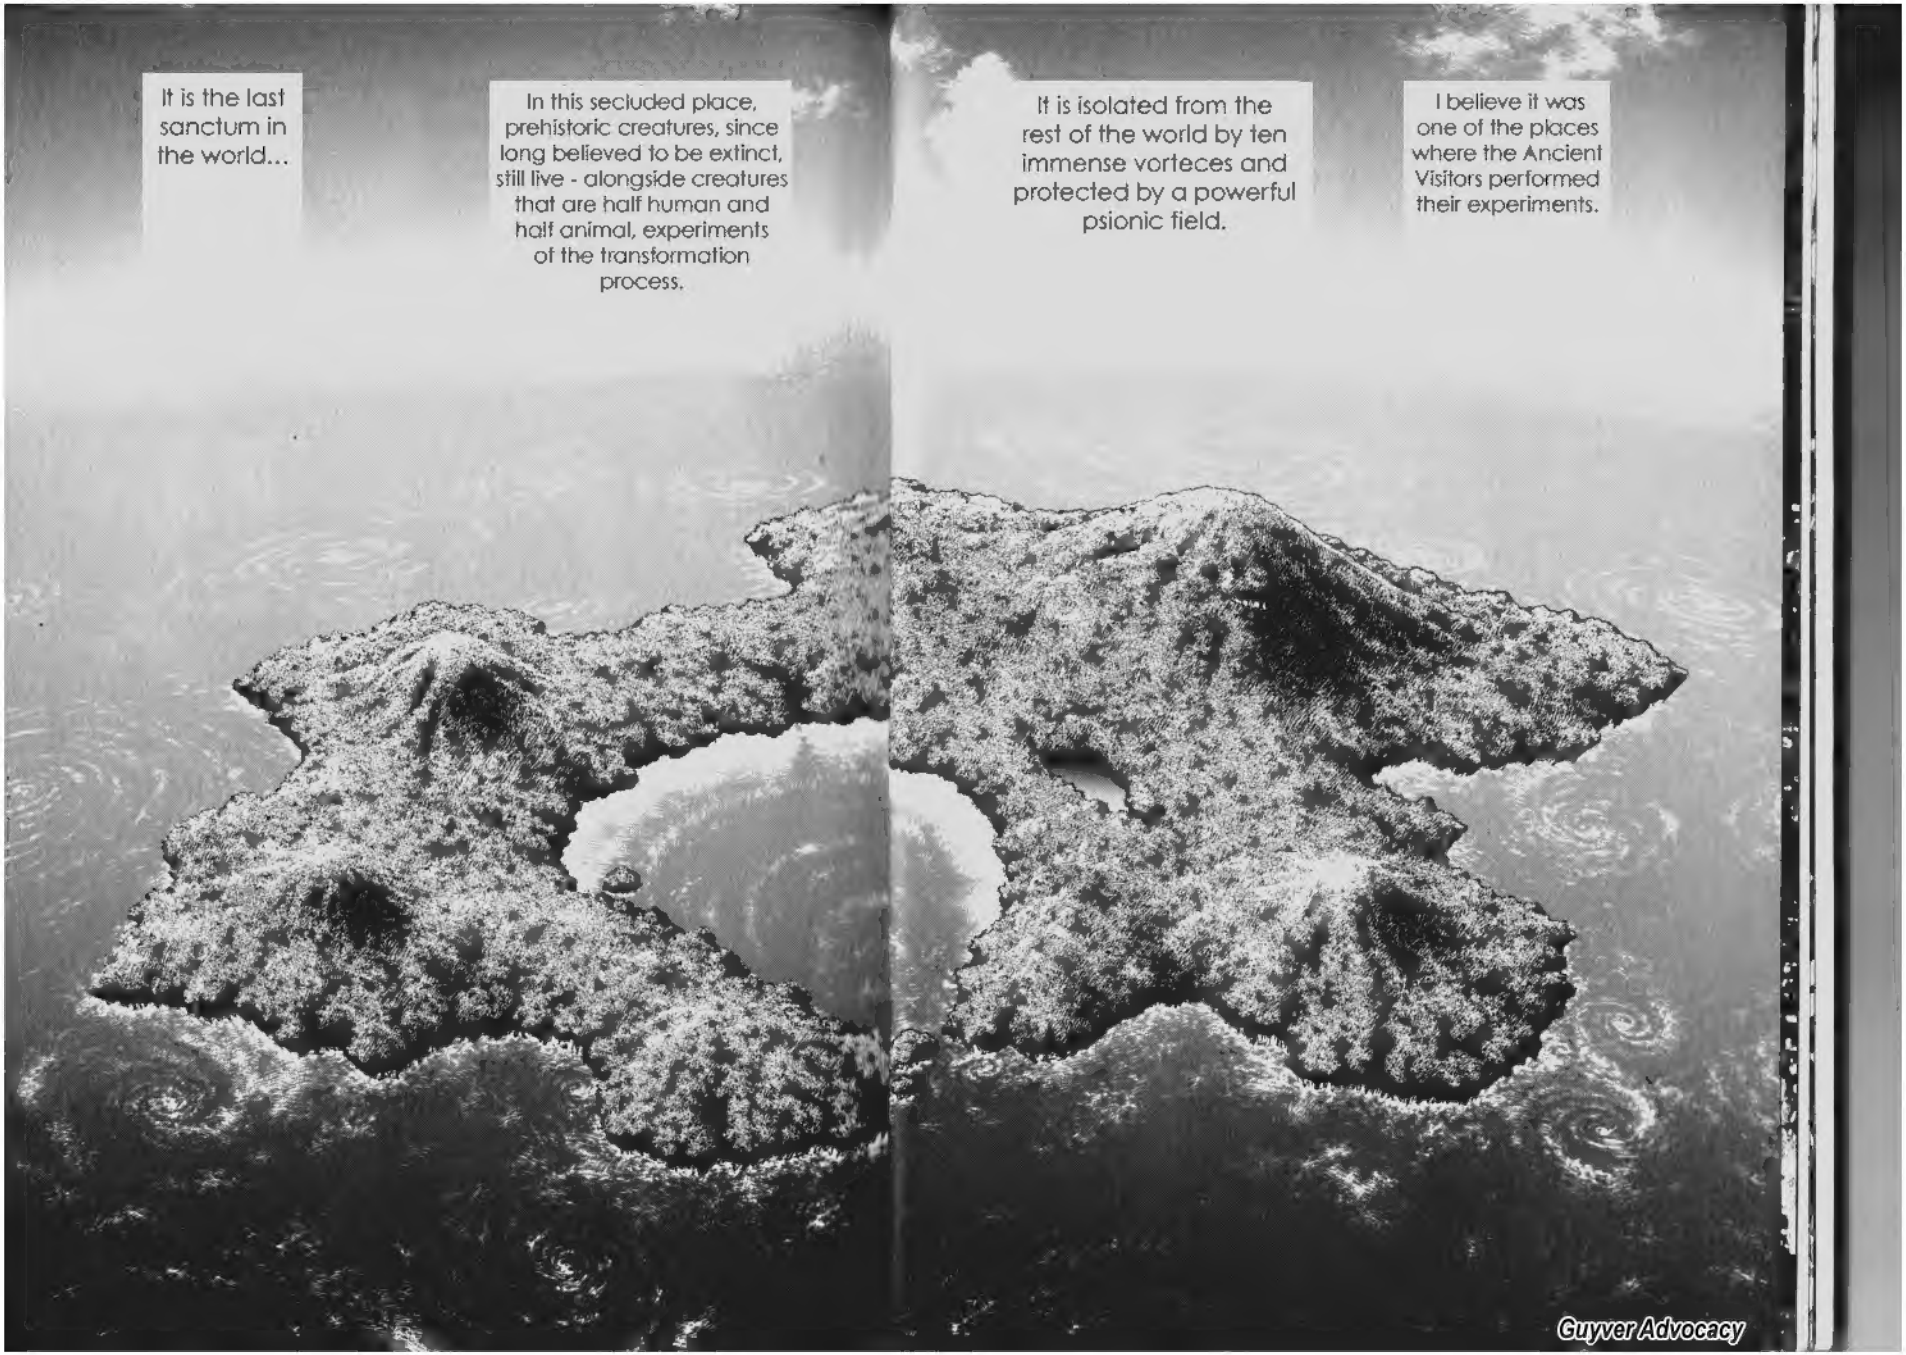
kept it secret, even from you.
I have kept the existence of the island a secret by any means...



I believe I read the description of this island in a book titled "John Mandevilles journal of a journey to the Eastern Countries", published in 14th century Paris...
According to the book, Adam and Eve lived on that island for some years after they were expelled from Paradise...



Guyver Advocacy



It is the last sanctum in the world...
In this secluded place, prehistoric creatures, since long believed to be extinct, still live - alongside creatures that are half human and half animal, experiments of the transformation process.
It is isolated from the rest of the world by ten immense vorteces and protected by a powerful psionic field.
I believe it was one of the places where the Ancient Visitors performed their experiments.

Guyver Advocacy

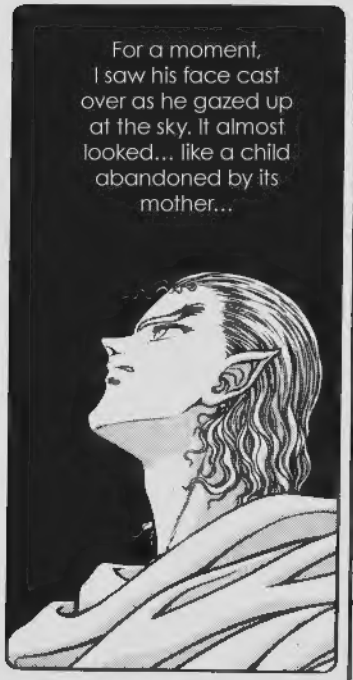
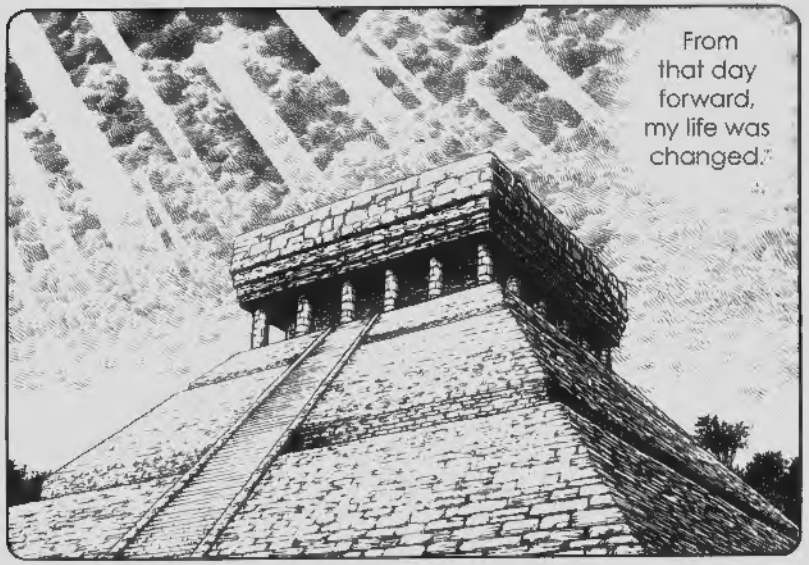
Who are you?
Who?
I-
I–
I am your ...
Your servant!
I heard a voice inside my head. And I knew immediately that here was a life form, infinitely superior to me.
In that meeting, my destiny was realized.
The divine power that I had sought unsuccesfully all my life, was here, in this being.

We require eleven men,
including yourself.
We shall seekothers like yourself.



For a moment, I saw his face cast over as he gazed up at the sky. It almost looked... like a child abandoned by its mother...

All of you will share in my power.
One day... my entire army shall sail into the heavens to launch my attack!

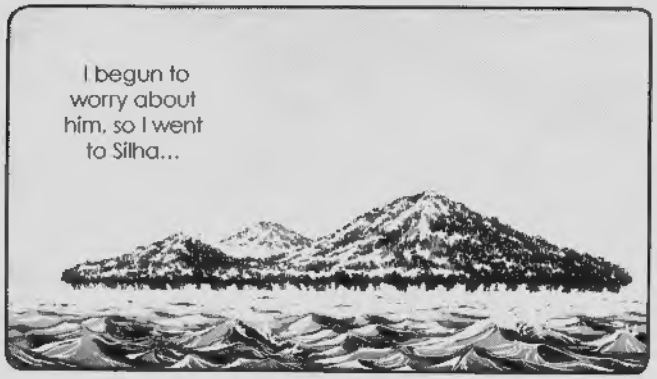


From that day forward, my life was changed.

Hamil-car...

Yes...

But his appearances became more and more rare,
We did not pay attention at first, we merely believed he was a very capricious person...



until finally he did not show himself for more than a year.

Accepting one of them, I became a Zoalord.
cleaving and cultivating one of Archanfel's Zoa-crystals, we created eleven others.

He was in a state of near-death.
His heart rate had decreased greatly and I could not perceive a natural body temperature.

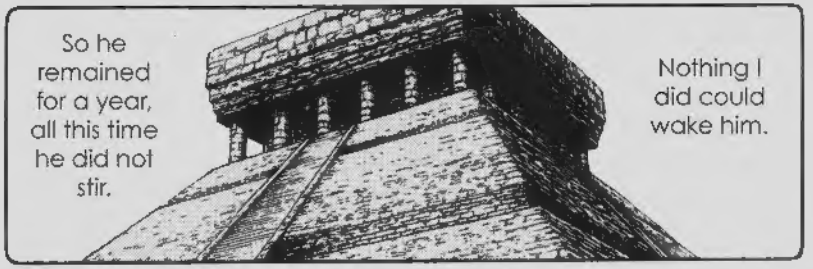
What had happened to Archanfel?
..!!

Archanfel was processed by the Ancient Visitors, in the old times, not like us...
however...

he is indeed the first Zoalord!

Even today,
I am still not certain ...

Archanfel lay motionless on the stone floor of the temple.



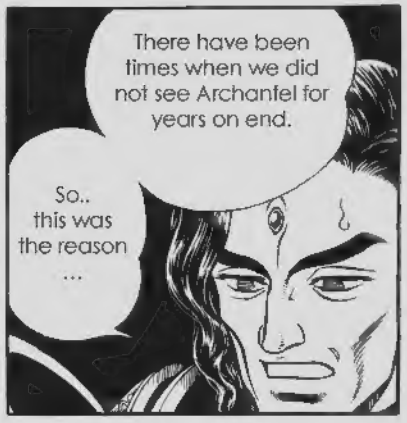
So he remained for a year, all this time he did not stir.
Nothing I did could wake him.

It takes several years now for a dormant phase to end.
These lethargic episodes are becoming longer and more frequent.

The problem is that during his hibernation, Archanfel is completely helpless.
And his mental control over the cabal of the twelve is considerably weakened.

This cycle has repeated again and again in the last 400 years...

I had no idea ...



There have been times when we did not see Archanfel for years on end.
So.. this was the reason ...

In all likelihood, this has something to do with the problem ...
He lay in that temple for tens of thousands of years.

Does that mean this has happened to Archanfel again since then?
Doctor, you said it had happened for the first time ...
Wait a moment!

Even as we speak, our lord is helpless in this accursed hibernation...
Yes...

!!

What if he recovers his original personality while Archanfel sleeps?
Can we really trust him? He does not seem the right person to serve Archanfel to me.

And now ...
Imakarum's will is that of Archanfel!

Murakami's personality was completely destroyed.
That will never happen.

...Connected?
His... mind?

not understand?
I do

His mind is connected to that of Archanfel's.
As if he is a part of our lord.

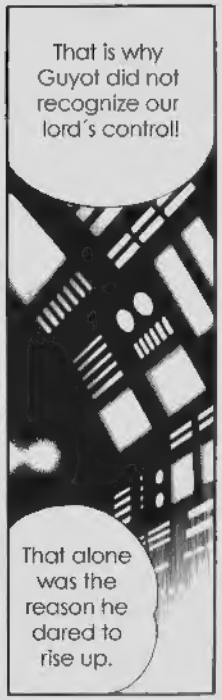
In any case...

that is why Guyot could rebel ...
So...

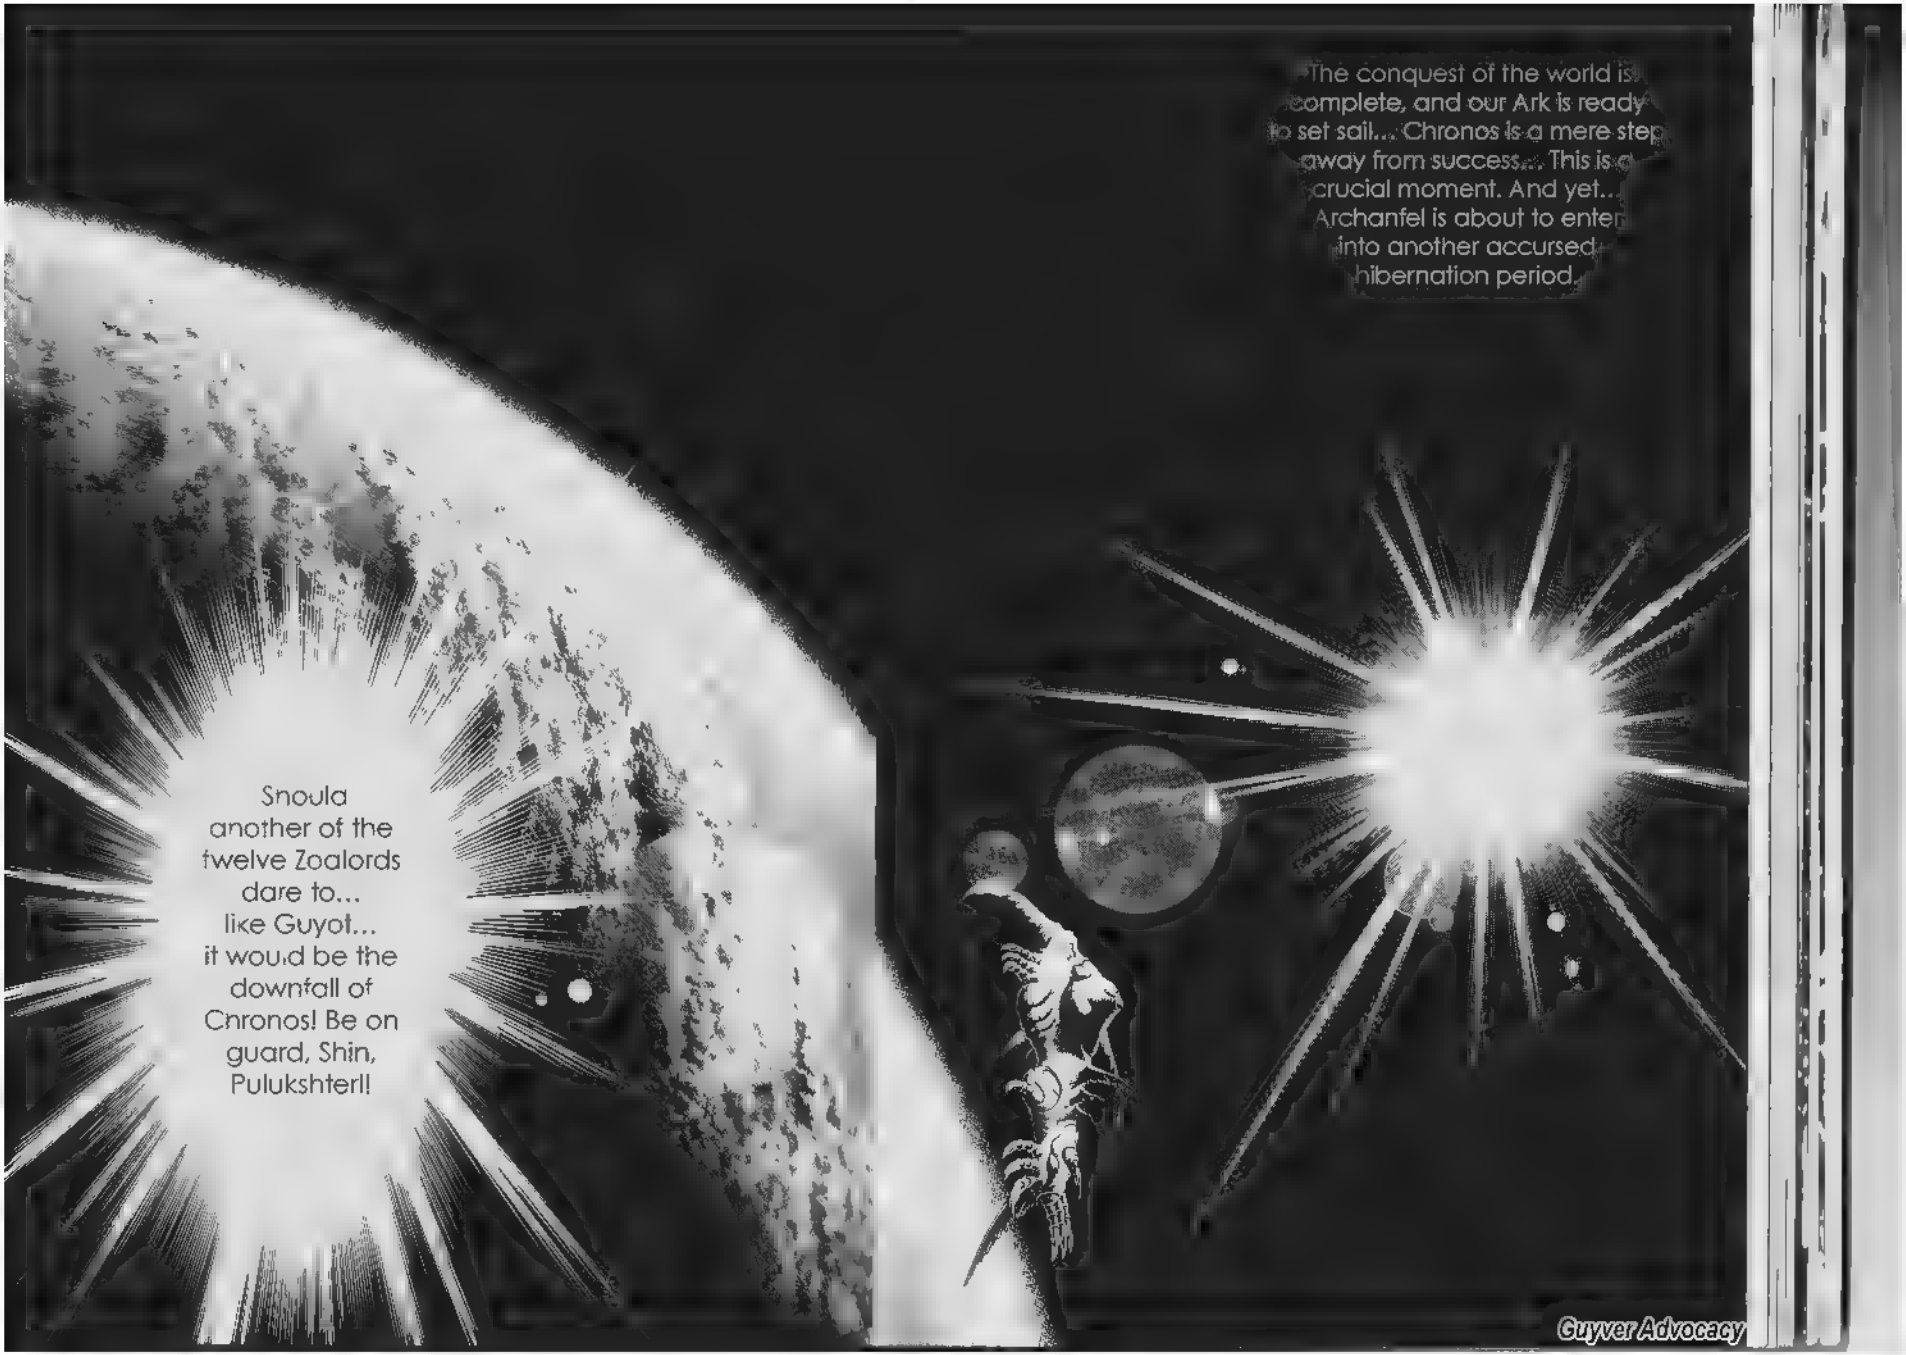
Archanfel was already in that state ...
When, seven years ago, Guyot was being processed to become the last member of us Zoalords,
Indeed.

Doctor Barcas, there is still something that worries me.

I am speaking of the man that took Guyot's place as the Twelfth Zoalord -
I am speaking of Imakarum!



That is why Guyot did not recognize our lord's control!
That alone was the reason he dared to rise up.



The conquest of the world is complete, and our Ark is ready to set sail... Chronos is a mere step away from success... This is a crucial moment. And yet... Archanfel is about to enter into another accursed hibernation period.
Should another of the twelve Zoalords dare to... like Guyot... it would be the downfall of Chronos! Be on guard, Shin, Pulukshter!!

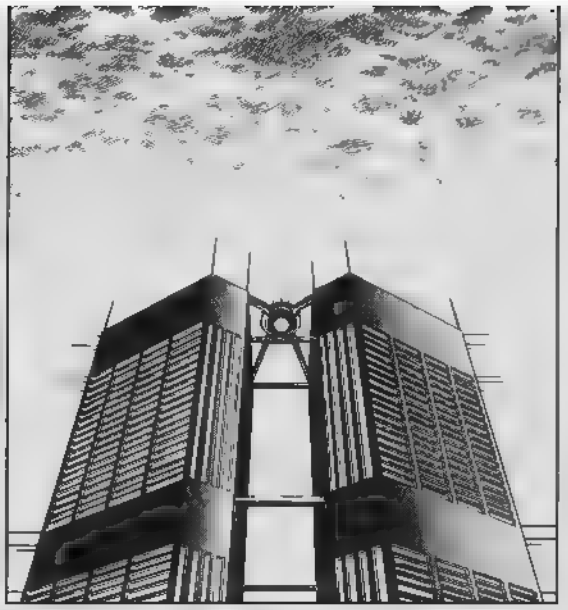
It seems to me that... the Gigantic that attacked C oud Gate
's different from the one that fought Mirab''s in Yoko-hama.

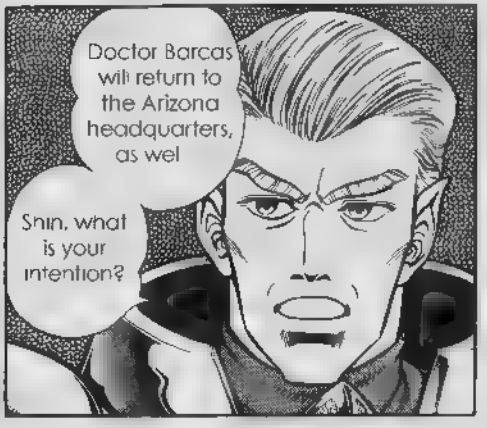
One is in America, but it is likely that the other is still here, in Japan!
...and, that they have seperated.

The Gigantic Guyver is in New York?



Kurumegn'k and the others have already left for the United States.
The squad that attacked the resistance cel operating in that area was destroyed

I will remain in Japan for the time being
I think



Doctor Barcas will return to the Arizona headquarters, as wel
Shin, what is your intention?

It's snowing

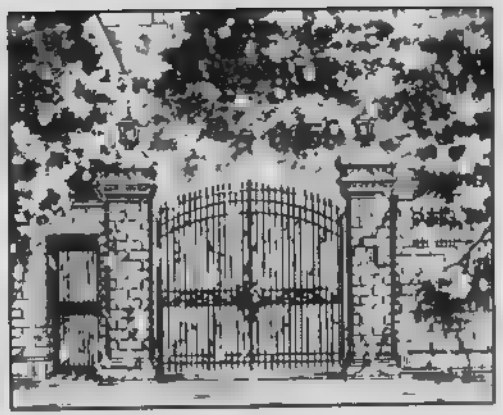
Thank you !
!!
With Mirabilis' defeat, I have no wish to leave you to hold down the fort here in Cloud-Gate on your own

We shoula verify what Dr.Barcas sa'd.
And there is another matter

indeed, if we revealed it, everything would collapse around us!
agree . .
Now that we know the secret that could destroy Chronos ..

Guyver Advocacy

Taking over the world..
flying into space...
One day I will undo all your plans ---
WITH MY OWN HANDS!!
Guyver Advocacy



The weather's grown cold somehow it's even snowing

It's been three days since Makishima and Shizu left for the United states

so we can only use heat and light in the inner rooms.
Offic'ally this house is abandoned

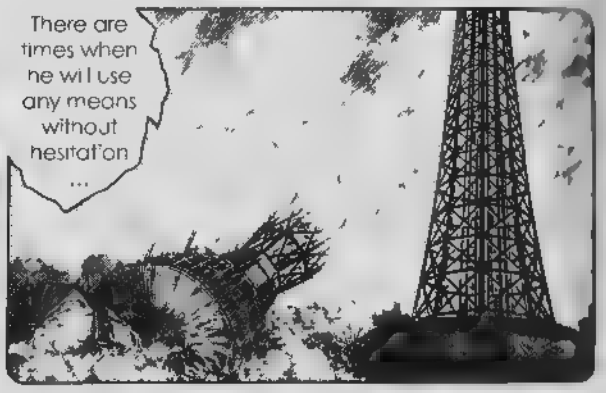
Ah yes And it seems Makishima nas sprung into action

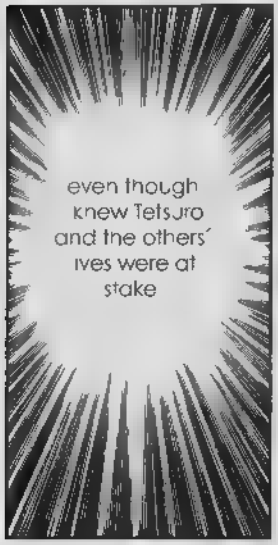
It will be all right.
Shizu wanted to stay with him. I wonder how she'll hold up?
I hope the documents we printed out will turn out to be useful.
He said that he wanted to review the accomodations of his organization Zeus Thunderbolt
and consolidate his power

It's going to be hard work...

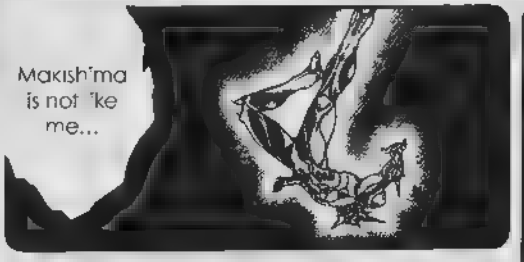
Yeah.
me too!

...





In that moment...

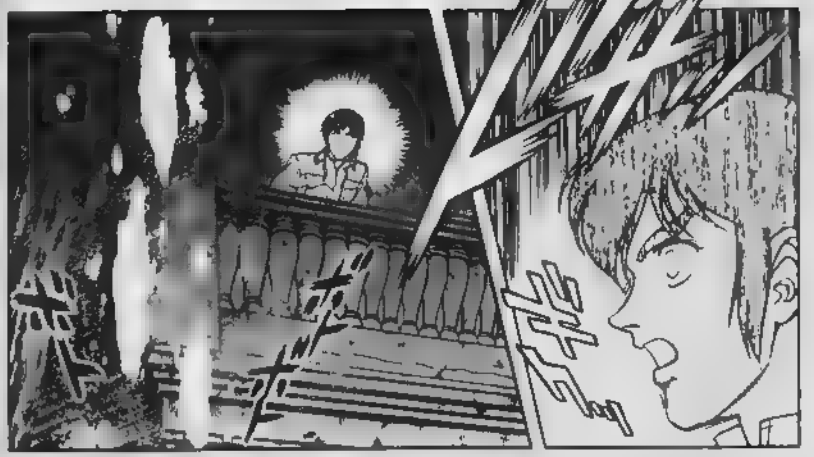


Guyver Advocacy

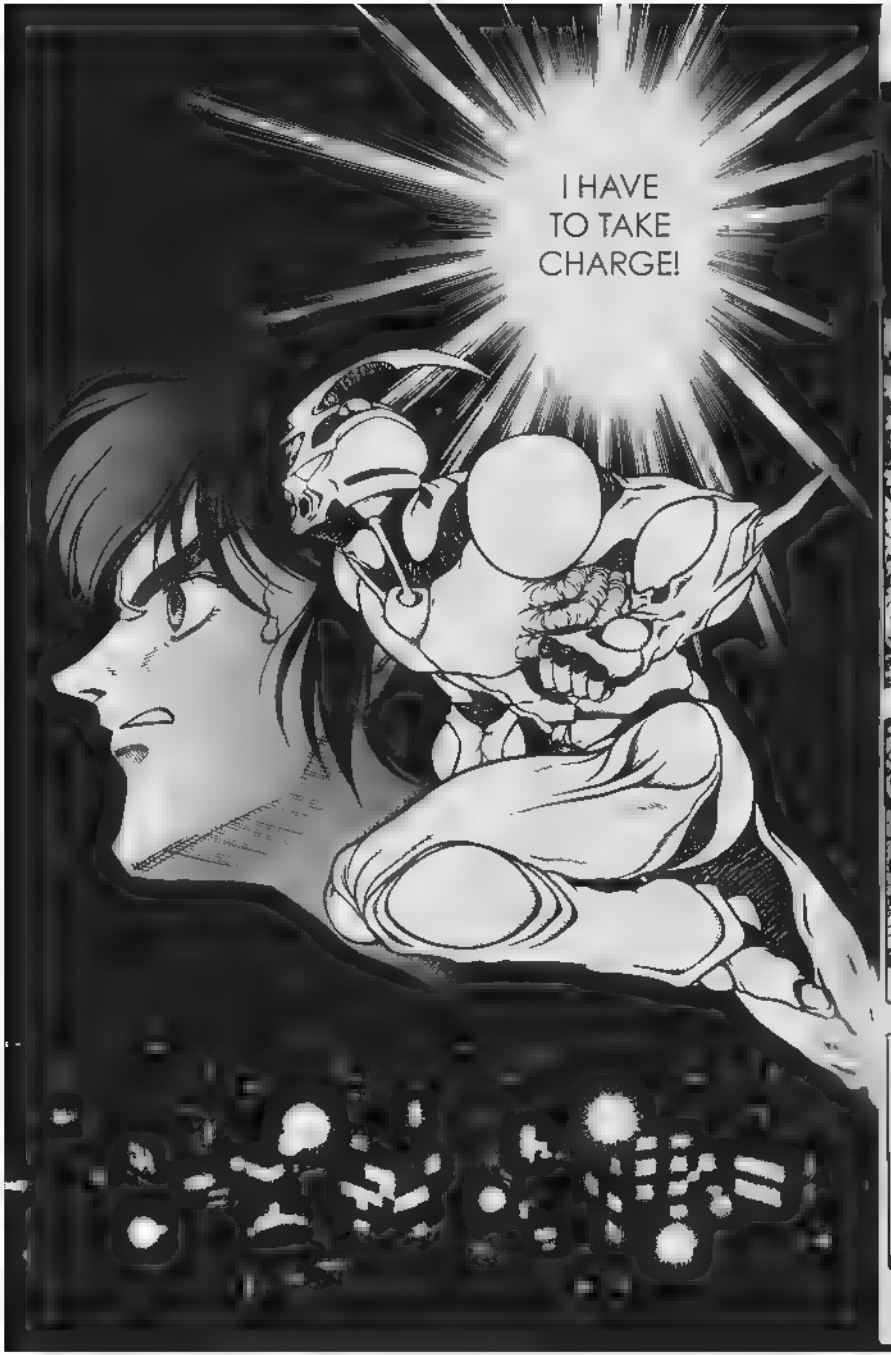
Some kind of Zoanoid?

Damn!
It has discovered where we are

GUYVER!



started me. .
Oh! It was just snow falling..



I HAVE TO TAKE CHARGE!

That's why we live in the base ment

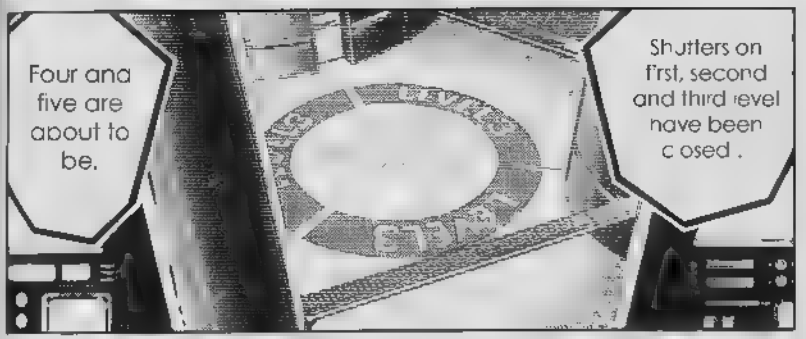
Your Gigantic was stolen away from you



Four and five are about to be.
Shutters on first, second and third level have been closed.

In the meantime we will prepare for battle. .
We can't stop it so easily, but at least we bought some time for ourselves

But that could only happen

because you have gone soft

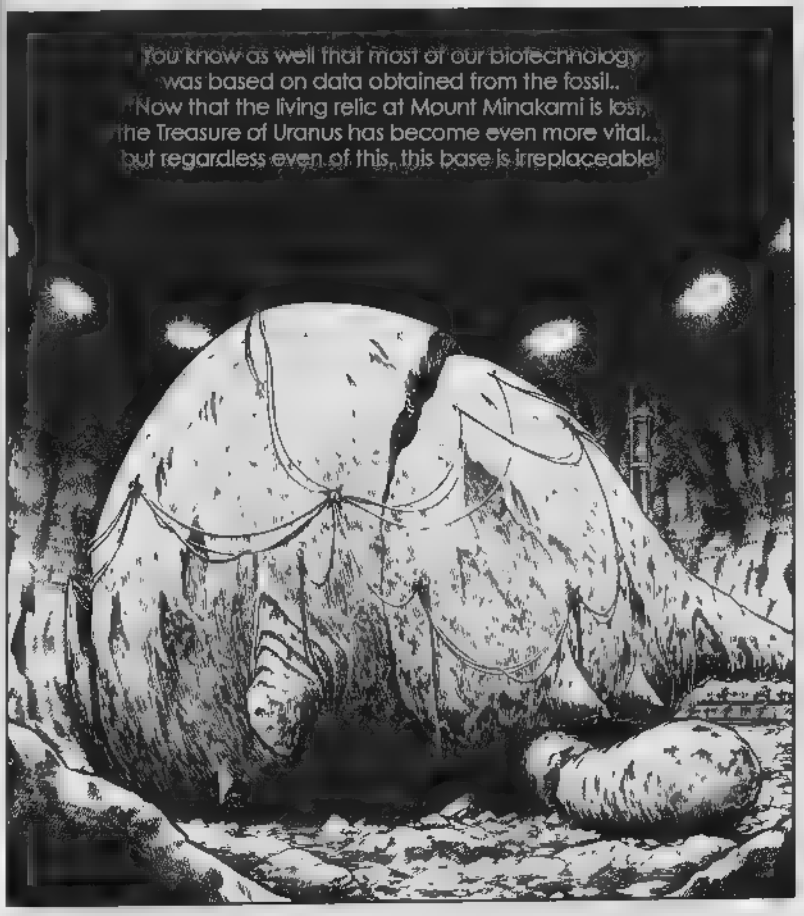
a 1200 bio-blaster-type Zoanoids are waiting at Sub-Level Four as ordered



You know as well that most of our biotechnology was based on data obtained from the fossil.. Now that the living relic at Mount Minakami is lost, the Treasure of Uranus has become even more vital.. but regardless even of this, this base is irreplaceable!

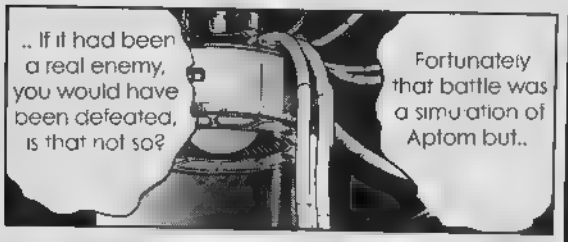
The Gigantic was pulled away from you .. by force?

I think so...

Makishima's will?
It was...

And yet he must have heard my voice.
I tried many times to communicate with him through the Guyver, but did not receive an answer.



.. If it had been a real enemy, you would have been defeated, is that not so?
Fortunately that battle was a simulation of Aptom but..

And Makishima knew it..

But then...

Won't we always fight together?

What is he thinking?

I still thinking of,

Or is Makishima

Aptom told me it happened because I am a weakling...

but Makishima took control of Gigantic by asserting his willpower!

With the power of the Gigantic it could easily have completely destroyed the base.
It had a reason..

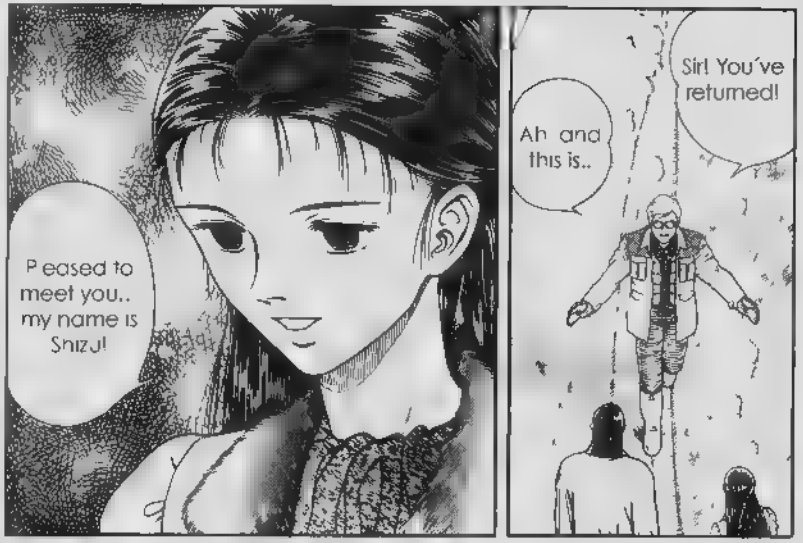
Doctor Barcas should know the reason
After the turmoil, it was reported that the Gigantic was seen,
What have you found here, Agito Mak'shima?
flying away from the support base road carrying a transport container...

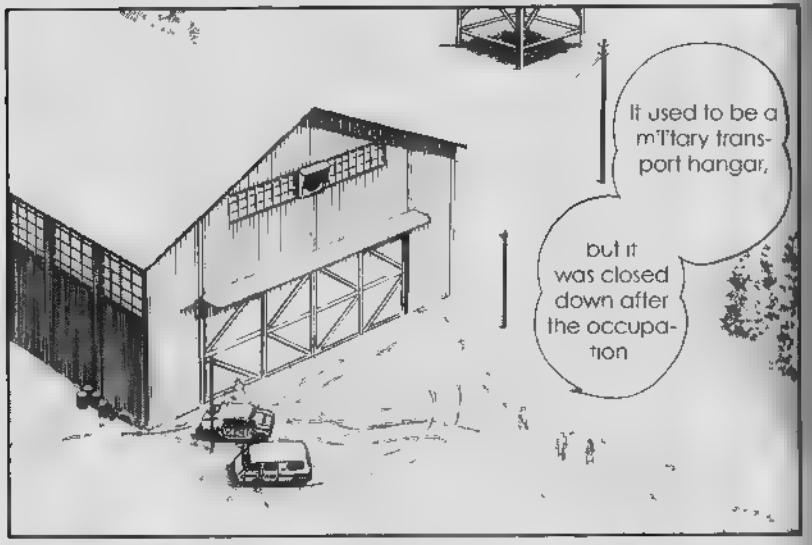
Guyver Advocacy

United States - Colorado
Guyver Advocacy



Sir! You've returned!
Ah and this is..
Pleased to meet you.. my name is Shizu!

We finally found ourselves a suitable location



It used to be a military transport hangar,
but it was closed down after the occupation

so, thankfully, we could acquire it.
They could not find anyone to buy it.

We wi be ab e to accom modate at least twenty process ng tanks here

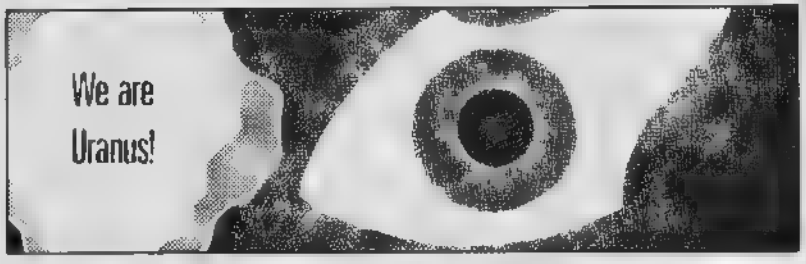
The creators of all living things in your world..
We are..



We are Uranus!

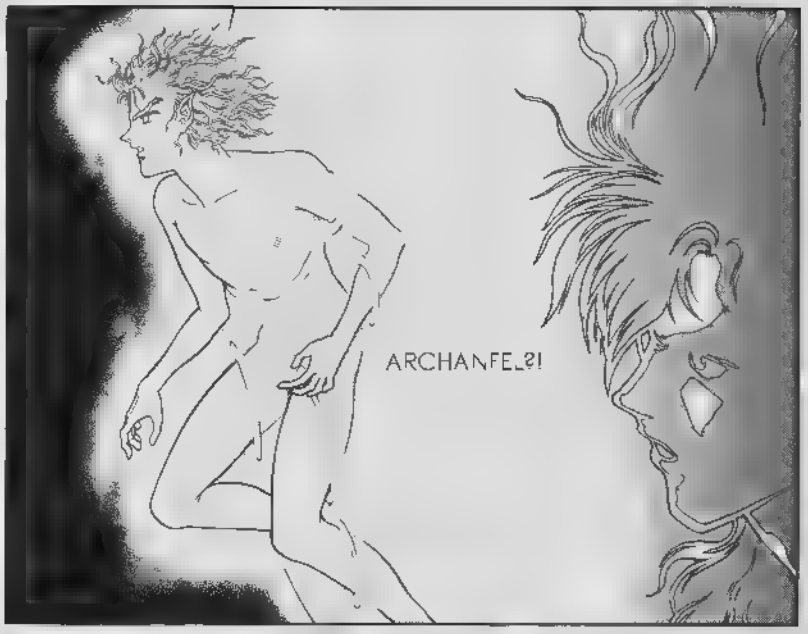
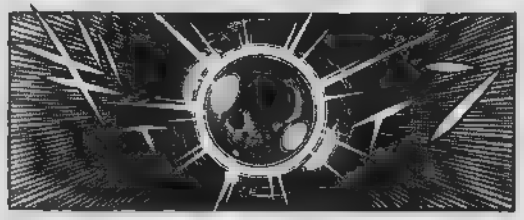
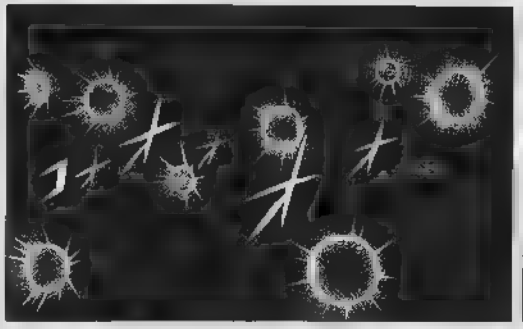
Understand ..I am seeing Archanfel's memories..
Uranus..

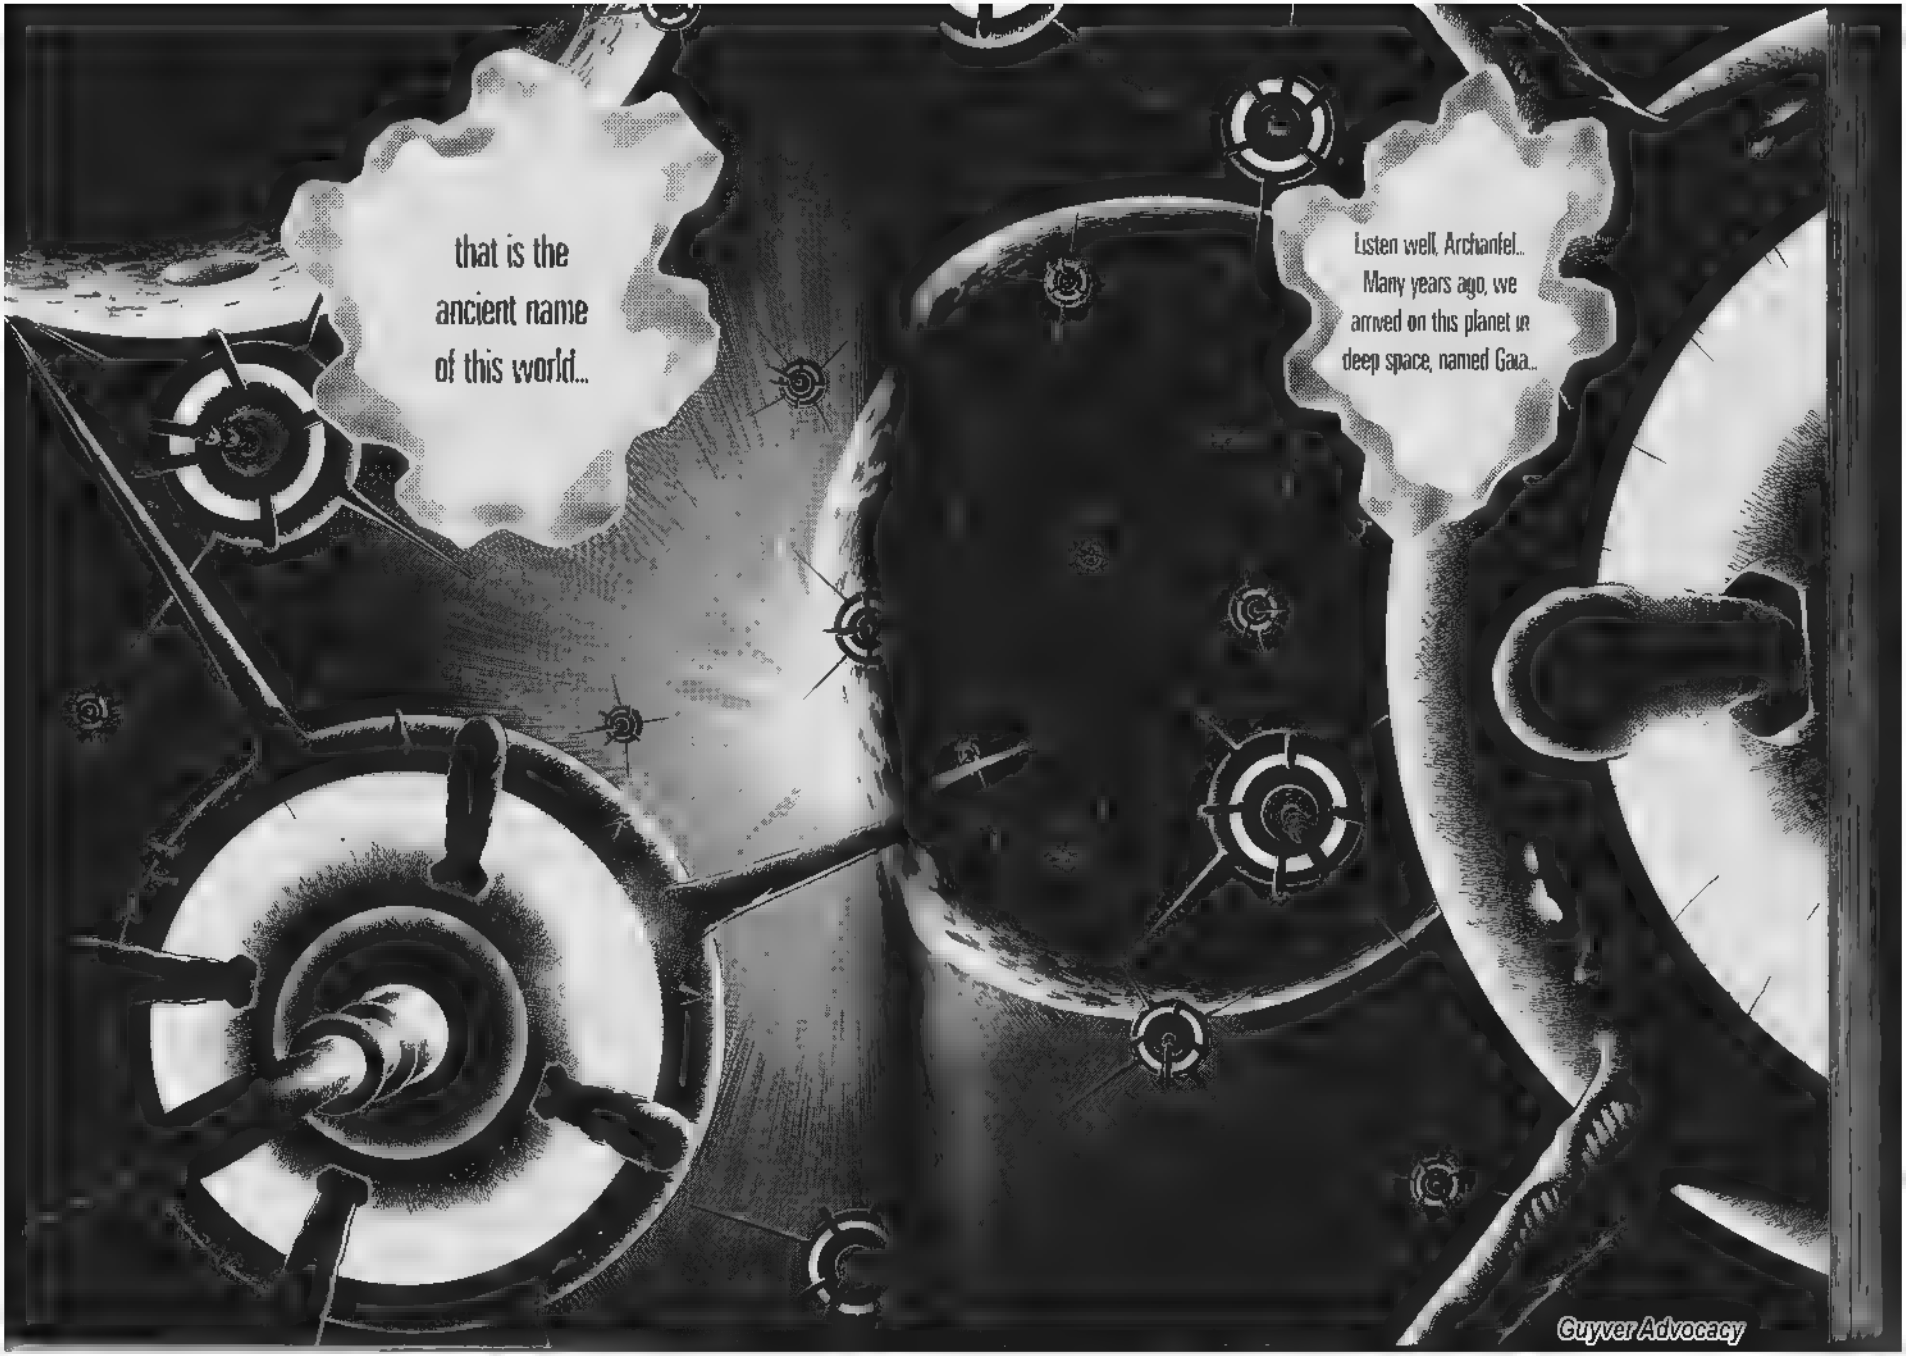


ARCHANFEL?!



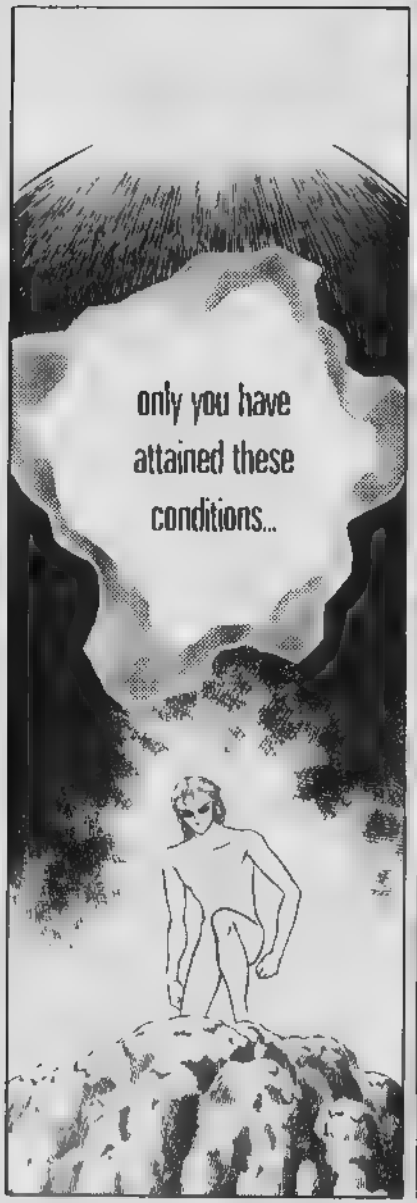


What does all this mean?
And where am I?



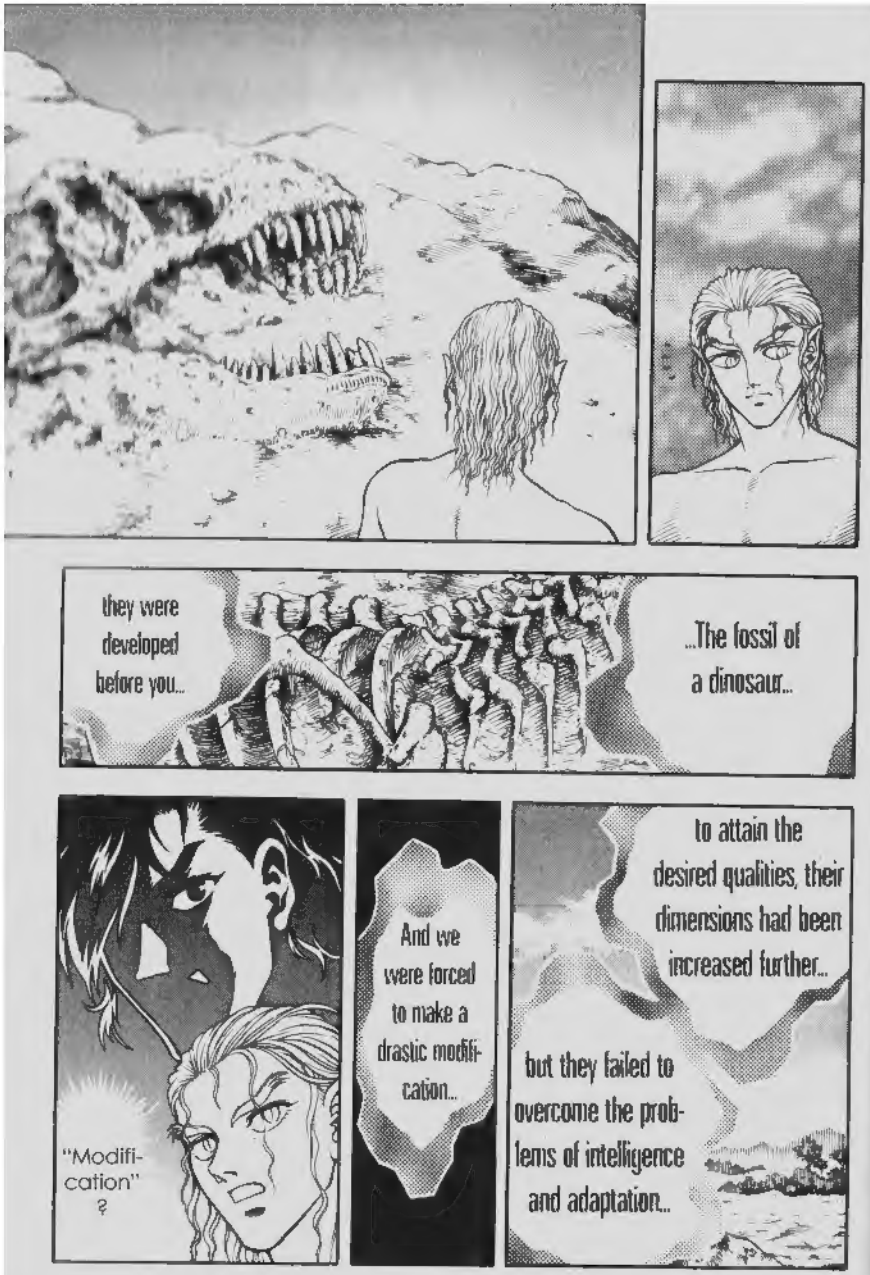
that is the ancient name of this world...
Listen well, Archanfel... Many years ago, we arrived on this planet in deep space, named Gaia...
Guyver Advocacy

We have been manipulating this planet's ecosystem ever since,in order to create beings like you...
... In order to create living beings to serve us as the army we need...
Guyver Advocacy

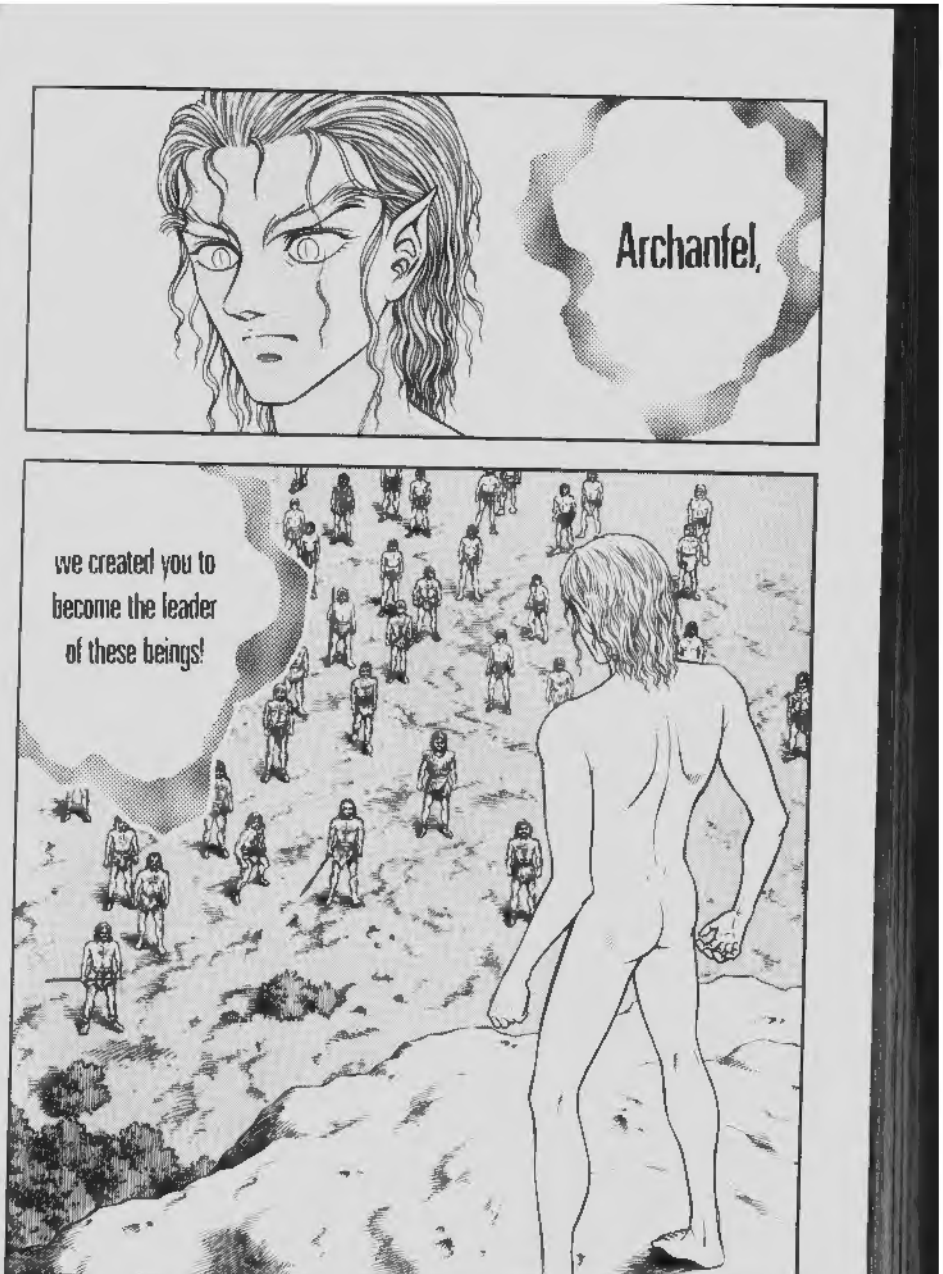


only you have attained these conditions...

to possess strong bodies that could adapt to a variety of environments...
..They were to be loyal, intelligent and capable of following our commands —
and above all, have a strong fighting instinct...



...The fossil of a dinosaur...
they were developed before you...
"Modifi-cation" ?
And we were forced to make a drastic modifi-cation...
but they failed to overcome the prob-lems of intelligence and adaptation...
to attain the desired qualities, their dimensions had been increased further...



Archanfel,
we created you to become the leader of these beings!

this resulted in the dinosaurs' extinction, to the advantage of the evolution of the mammals...
We caused a massive change in Earth's environment by causing a large meteorite to hit...
